2012 VSI EQUIPMENT INVENTORY LIST

COMMENTS AND CONDITIONS:				
	<p>All equipment is being sold in "AS IS" condition. We have made every effort to document the condition of all the equipment and have tested equipment where possible and practical. Once the auction is closed and you are the high bidder of your items, you will need to send your check or money order to the VSI Treasury before you can make arrangements to pick up your winnings. All sales are final.</p>			
	<p>1 CTS 6 Contents and Conditions - CTS6's were tested for power on and back-up battery condition. Some units have been upgraded to the latest firmware and software versions. Some units have been upgraded to the latest hardware version that uses USB connections for printers. CTS6's come with plastic carrying cases and user manuals.</p>			
	<p>2 CTS 5 Contents and Conditions- CTS 5's were only tested to see if unit would power on. NO functionality was tested. NO testing of battery back-up system. Some units are missing charging/power supplies. CTS 5's come with a plastic carrying case.</p>			
	<p>3 Touch Pads - All gutter pads were tested dry. Pads DO NOT come with gutter mounting Velcro strips.</p>			
	<p>4 Flat Pads - All pads were tested dry. Flat pads come with stainless steel mounting brackets. Although all the flat pad electronic mechanism work, most of the pads have loose, broken, or missing tabs for the mounting brackets. Estimated repair cost is \$100.00 per pad.</p>			
	<p>5 Cable Harness Button Plug Condition - "1x" means the tab/button plug on the cable harness does not work. Cables can be repaired by Colorado Timing System if 2 or less plugs are not working.</p>			
	<p>6 Cable Harness End Plug Condition - B/R code means the "dog ears" on the cable plug are missing or broken so the retainer clips have nothing to connect to.</p>			
	<p>7 Cable Harness Extension End Plug Condition - N/C code means the extension cord has no retainer clips to connect to the adjacent plug. B/R code means the "dog ears" on the cable plugs are missing or broken so the retainer clips have nothing to connect to.</p>			
	<p>8 Championship Start System Contents - All starting units have been tested and working properly (except 1): 1. 10-watt/8-ohm black auxiliary speaker 2. Microphone with 25-foot cable 3. Portable Tripod: adjustable height 4. Jumper cable 5. Microphone 6. 6-watt/45-ohm lane speaker 7. Loudspeaker cable harness 8. External strobe and cable</p>			
	<p>9 Champ Starter 12306Jo3 - This starter will ONLY run with external power source. This unit is MISSING: charger unit, wireless antenna, wireless microphone, attached external speaker,</p>			
	<p>10 Infinity Start System - Systems were tested for speaker and strobe functionality. Each Starter comes with a power charger, wired microphone, 25' jump cable (to the start plug on the timing cable harness), tripod, and user manual.</p>			
	<p>11 Model ss02 Start Systems - Starters were not tested. These are the old style starters with detectable legs and you have to slide the front cover off to start and control the volume.</p>			
	<p>12 Dot Matrix Printers - Printers were not tested. Working condition is unknown. Replacement ribbons are included.</p>
