

## Broken Links to some USA

*The new USA Swimming website is now live! Because of that, some of the USA links found on this website may not work.*

As the person responsible for content of your VSI pages, if you find USA Swimming links on your page that need a new link and have found it on the USA website please send it to us so we can expedite the corrections.

Be assured we will continue to search VSI's website for broken links and then search the USA Swimming website to locate the appropriate page and URL.

We appreciate your patience while we work to get the links updated.
